LATE / INCOMPLETE QUOTATIONS WILL NOT BE CONSIDERED

1. BACKGROUND

SFF is a wholly owned subsidiary of CEF established by the Government and came into operation in 1977. The entity is mandated by the Minister of Energy to manage and control the Strategic stocks, Strategic assets and commercialization of the assets in order to fund the government mandate.

In 2012 SFF merged with Oil Pollution Control South Africa (OPCSA), which was previously a service provider to SFF. SFF manages three terminals: Saldanha, Milnerton and Ogies. Saldanha is fully utilized for both strategic crude storage and commercial activity with its revenue used to fund the mandate of SFF.

2. SCOPE OF WORK

The site should be viewed before quotation.

We require the services of a plumbing service provider to conduct a leak detection exercise for the old Head Office buildings.
